METCAP joins EstVCA, Estonia's private equity and venture capital association

METCAP holdco OÜ has been accepted as a member of the Estonian Private Equity and Venture Capital Association (EstVCA). Founded in 2009, EstVCA is the voice of private equity and venture capital in Estonia, uniting the country's leading PE and VC funds, mezzanine and real-estate investors, family offices, institutional investors and advisers, and working to strengthen the local ecosystem, expand international connections, and advance knowledge across the industry.

Membership reflects the core of what METCAP does. As a sector-focused strategic equity investor in financial services, METCAP invests its own long-term, permanent capital and takes active, concentrated positions in Baltic and European financial-sector companies, including ESTO, Mintos and INDEXO. Joining EstVCA connects that work to the region's private capital community and to the funds and investors shaping the future of finance in Estonia and beyond.

STRATEGIC
PRIORITIES

METCAP's roots are in Baltic finance, and its ambition is regional and global — building and backing financial companies that compete well beyond a single market. As a member, METCAP intends to be an active participant: widening its network alongside the firms already building here, contributing its experience in building financial platforms, and supporting EstVCA's work to bring more capital to Estonia and strengthen European capital markets over the decades ahead.
