
TALLINN, ESTONIA · 17 JULY 2026

METCAP joins FinanceEstonia, the country's financial-sector association

METCAP holdco OÜ has been accepted as a member of FinanceEstonia, the representative organisation of Estonia's financial sector. Founded in 2011, FinanceEstonia unites close to 100 member companies — spanning banking, capital markets, fintech, insurance and credit — and works to strengthen the sector's development and innovation and the export of Estonian financial services.

The relationship is not new. FinanceEstonia has been a long-standing partner of ESTO — METCAP's portfolio company and one of the Baltics' leading non-bank credit providers — which has worked alongside the association for years. METCAP's membership extends that relationship to the holding-company level, connecting its wider platform of strategic holdings, capital markets and financial advisory to the association's network and policy work.

2011 FINANCEESTONIA FOUNDED	~100 MEMBER COMPANIES	5 WORKING GROUPS
-----------------------------------	-----------------------------	------------------------

As a member, METCAP intends to take part in FinanceEstonia's working groups in the areas closest to its activities — capital markets, credit and fintech — contributing to the development of Estonia's financial ecosystem as it builds a diversified capital and markets platform.
