METCAP takes a strategic equity position in Mintos, Europe’s leading multi-asset investment platform

METCAP holdco OÜ has taken a strategic equity position in Mintos (AS Mintos Marketplace), Europe’s leading multi-asset investment platform. Mintos is an EU-regulated investment firm, licensed and supervised by Latvijas Banka, the central bank of Latvia, and today gives more than 700,000 investors across 90+ countries access to loans, bonds, ETFs, real estate, and cash within a single venue.

Originators do not just build assets — they live and die by their funding stack: liquidity, duration, and long-term capital. Mintos is the rail that solves the liability side at scale. METCAP’s portfolio company ESTO has funded on that rail since 2019, giving METCAP a firsthand read on the platform’s quality and resilience through cycles.

€800M+	MiFID II	7
ASSETS UNDER ADMINISTRATION	LICENSED	ASSET CLASSES

The larger prize is structural. European household savings are converging toward the US model, with deposits rotating out of cash and into bonds, equities, and real assets. As a MiFID II-licensed venue already serving hundreds of thousands of investors, Mintos sits squarely in that secular shift, addressing a large and growing market. METCAP is a long-term holder.

Source: Mintos published platform statistics and company disclosures, 2026 — assets under administration, licensing, and asset-class coverage per Mintos. AS Mintos Marketplace is licensed and supervised by Latvijas Banka, the central bank of Latvia.
